

ACHIEVO

A Productivity WebApp

Women EngineersTalentSprint

21/06/2023

Team Members

- ▶ Nidhi Iyer
- ▶ Khyati Satija
- ▶ Pankhuri Asthana
- ▶ Srinayana Mandalapu
- ▶ Anushka Shankar

Problem Statement

- ▶ Unfocussed and unmotivated people
- ▶ Decreased productivity and consistency
- ▶ Shortended attention span due to social media

- ▶ It increases focus levels and attention span of the user
- ▶ It provides effective productivity techniques
- ▶ It acts as a virtual accountability partner

Target Audience

- ▶ School and college students
- ▶ Competitive Exam Candidates
- ▶ Working professionals of all age groups

Features

- ▶ Pomodoro Technique
- ▶ To-Do list (1-3-5 rule)
- ▶ Eisenhower matrix
- ▶ Milestone Setter
- ▶ Fill the Container
- ▶ Reward based point system
- ▶ Productivity tracker

Future Additions

- ▶ Group and Global Leaderboards
- ▶ The Motivating Spinning Wheel
- ▶ The Good Scroll
- ▶ Marathon Mode
- ▶ The-Hour-Rule
- ▶ Dilemma Bar

Objectives

- ▶ To enhance our learning.
- ▶ To explore various technologies via the process
- ▶ To gain insights into how such features work.
- ▶ To implement our learnings and knowledge into our web-app
- ▶ To deploy it and provide a solution to the raised issue

Work Done

- ▶ Started learning HTML
- ▶ Researched about APIs
- ▶ Created Git Repository
- ▶ Decided the tech stack
- ▶ Made Weekly Plans and set milestones
- ▶ Discussed a rough idea of visual frame-work
- ▶ Learnt Sphinx for docs and \LaTeX for presentation
